I'm very pleased to share an honor I received this past Sunday at the opening reception for the 2016 PAC National Exhibition "Color", juried by Dominic Molon, Richard Brown Baker Curator of Contemporary Art at the Rhode Island School of Design Museum. Out of 750 works submitted from around the USA, 65 were selected for the exhibition. Five Honorable Mentions, four Named Awards, and four Top Awards, my work originally created for an art glass project entitled "**082415 - Metabolic Transformations**" received 3rd Place in the Top Awards.

The PAC (Providence Art Club) the second oldest in the country, founded in 1880, is located on the Rhode Island School of Design campus.

List of Selected Exhibition Winners

liquidoranges STUDIO LLC is committed to integrating art with architecture through glass, hand-tufted carpets, specialty design, and original bespoke artworks.
